A busy place these days is Kirby's jewelry store. All day people are picking out those Christmas gifts. Lots of people will be made happy with goods from Kirby's.

Jolly nice for Christmas gifts, worth having and so useful, too, as well, are those muffs, collarettes and shoulder capes at the Burgess Fur & Hat Co.'s; also glance your eye at those dress-suit cases.

It is reported in Milford that a man who goes by the name of Henry Bowcher, who formerly belonged to this city, was drowned at the point of Milford Beach Monday night. He has been missing since that night.

The grand annual reception and ball of the Second company, Governor's Horse Guard, will take place in the Second regiment armory next Monday night, December 16. This event is always looked forward to with a great deal of pleasure by the many friends of the Guard, and this year the Guard are endeavoring to make this annual eclipse any former ever given by this popular organization. It will be one of the most brilliant social events of the season.

D. of L. Will Elect Officers.

The regular meeting of the Goddess of Liberty chapter No. 3, D. of L., was held last evening and six new members were elected. They will be initiated at the next meeting, at which occurs also the election of officers. The society has received ten new members within two weeks. W. O. Staples, national and state secretary, will be present at the initiation December 27. Mrs. C. H. Johnson is at present counselor of the society.

A BEAUTIFUL DISPLAY.

A notable display of goods is made at J. H. G. Duran's jewelry store in Hoadley building, Church street. Mr. Duran is and has been for many years, though still a young business man comparatively, a very popular merchant and rapidly advanced to the front in the jewelry line. His display of goods this season is the largest he has ever made and a great one to select one—something for every taste and pocket-book, including a most brilliant array of finger rings and solid silver and enamelled table ware very beautiful, the choicest lines of ladies' watches, opera glasses from \$2 to \$20 in profusion and any amount of novelties in sterling silver. The optical department, as usual, a specialty. For other particulars see his holiday advertisement.

IMPROVEMENTS COMPLETED

At the Church of the Messiah.
The improvements at the Church of the Messiah, which have been in progress for some time past, have just been completed and the auditorium will be reopened for divine service to-morrow. The work of erecting the new organ is also complete.

Professor Gulon, the well known organist, has been engaged to play the instrument for the coming year and Thomas Adams will continue to lead the choir.

In the near future an opening concert will be given at the church, in which Miss Elizabeth C. Gaffney and Kricson Busnell and several other very prominent singers will take part. The new organ is said to be one of the best in the city.

OF LOCAL INTEREST.

United States Senator Stewart, the noted populist senator, was in town yesterday. He is a quite frequent visitor to Meriden, where he has friends and business interests.

Hans Munson's house at South End, near the bridge, was burned to the ground Thursday afternoon. The few people living in the vicinity made futile efforts to save the premises. They were unoccupied. The building was bought a short time ago by Mr. Munson from Charles Thompson and was unoccupied. It was valued at \$2,500; and insured for \$1,500.

This evening the parlors of the St. Aloysius society, 731 Chapel street, the Agnes' Ladies' T. A. B. society will tender a public reception in honor of Mrs. L. M. Lake of St. Louis. They extend a cordial invitation to all the ladies of the city to attend. Mrs. Lake is to lecture in the Grand Opera house Sunday evening in the interests of the local Catholic Total Abstinence societies, is the third vice president of the National C. T. A. union. She is an excellent speaker and will undoubtedly be greeted by a large audience. Last year Mrs. Lake assisted in the organization of seven women's societies. She also delivered sixty lectures in the different states. From Ireland, England and Mexico, besides many parts of the United States, where she could not accept. Last week she travelled through Massachusetts and next week will go to Providence. Everybody is welcome Sunday evening. A fine program will be tendered. A voluntary offering will be taken up at the entrance.

Health Officer Wright says regarding the reported epidemic of scarlet fever in the Dwight school district that since the first of November 13 cases of the disease have been officially reported. Three cases were in ten different homes. "Since last Sunday no new cases have appeared. Of these 13 cases one is that of the mother of one of the children taken sick several weeks ago, who has now recovered. One is not of school age nor does any one in the family attend school. It will be seen that since November 1, 11 school children in that district have had scarlet fever and several of these have so far recovered that their houses will be disinfected within a few days. There are at the present time just ten yellow cards posted indicating the presence of contagious diseases, one of them for diphtheria. Of 800 school children in the Dwight district, 130 have been withdrawn on account of scarlet fever. I have these figures from Mr. Camp, the principal, this morning, and he assures me that all that are not accounted for as above are attending school regularly. In my humble opinion the prevalence of scarlet fever in that vicinity is not due to the school, as it is divided about equally between the Dwight and Orchard street schools, and it is not confined to any particular rooms."

Captain George R. Hodgdon, manager of the Tontine hotel, will bring suit against C. S. Thompson, agent of the property. The house was recently leased to George White, manager of Heublein's cafe, for \$4,800 a year. Captain Hodgdon is paying \$3,600. He has expended \$11,000 in repairing the hotel, and claims that he was assured by Agent Thompson that the rent of the house would not be raised, in view of the improvements made. The directors of the Consolidated road will hold their December meeting in New York to-day. One of the most important matters to be considered will be the quarterly dividend, which the directors will declare for the quarter ending December 31. It is not generally believed that the dividend will be increased, as large expenditures for improvements are still to be made in the near future.

The following applications have been recommended for admission by the membership committee of the Monticello club: Michael F. Brennan, E. R. Hoyt, J. F. Worner, Frederick L. Cavell, Patrick F. Reynolds, Thomas Melns, Edward J. Cannon, Matthew Leahy, Allen Drew, A. K. Kennedy, F. B. Durant, James H. McGovern, George W. Bromley, Edward Sisk, John J. Sullivan, Robert Enscoe and Patrick McManus.
